

Streamlit Cheatsheet

This cheatsheet covers the most commonly used Streamlit functions, layouts, and tips.

1. Basic Setup

```
import streamlit as st
st.title("My Streamlit App")
st.write("Hello, Streamlit!")
```

2. Text & Display

```
st.title("Title")
st.header("Header")
st.subheader("Subheader")
st.text("Simple text")
st.markdown("**Bold Markdown**")
st.code("print('Hello')")
```

3. Data Display

```
st.dataframe(df)
st.table(df.head())
st.json({"key": "value"})
```

4. Charts & Plots

```
st.line_chart(df)
st.bar_chart(df)
st.area_chart(df)
st.pyplot(fig)      # Matplotlib
st.altair_chart(chart)
```

5. Input Widgets

```
st.button("Click Me")
st.checkbox("Check")
st.radio("Choose", ["A", "B"])
st.selectbox("Select", ["X", "Y"])
st.multiselect("Multi", [1,2,3])
st.slider("Slide", 0, 100, 25)
st.text_input("Enter text")
st.number_input("Enter number")
st.date_input("Pick a date")
st.file_uploader("Upload a file")
```

6. Layouts & Containers

```
col1, col2 = st.columns(2)
with col1:
    st.write("Left column")
with col2:
    st.write("Right column")

with st.expander("See details"):
    st.write("Hidden content")
```

7. Status & Progress

```
st.progress(50)
with st.spinner("Loading..."):
    time.sleep(2)
st.success("Done!")
st.error("Error!")
st.warning("Warning!")
st.info("Information")
```

8. Caching & Performance

```
@st.cache_data
def load_data():
    return pd.read_csv("file.csv")

@st.cache_resource
def load_model():
    return joblib.load("model.pkl")
```

9. Media

```
st.image("image.png")
st.audio("audio.mp3")
st.video("video.mp4")
```

10. Advanced Features

```
st.sidebar.title("Sidebar")
option = st.sidebar.selectbox("Choose", ["A", "B"])

st.session_state["key"] = "value"
st.experimental_rerun()
```

 **Tip:** Run your app with:

```
streamlit run app.py
```
